

Online project and resource development exit interviews sample questions:

- Do instructors feel that they have undergone changes in their way of thinking, planning, perceiving and conceiving of curriculum and course design concepts and practices? Of what specifically, and why?
- As a result of this course build/development experience, what practice related changes have they implemented or begun implementing?
- What changes have instructors observed in their students' learning (e.g. regarding engagement, autonomy, interaction, ability)?
- In what ways has the instructor shared practices, experiences and ideas gained from the _____ with their peers? Examples?
- How has their development of _____ helped them pursue departmental or institutional teaching and learning priorities?
